Letter of Recommendation

25.2.2016

We are an international boarding school in Germany which is based on the ideas of Kurt Hahn, the founder of worldwide known educational programs like „Outward Bound“, „The Duke of Edinburgh’s Award“, „The Round Square“ and the „United World Colleges“.

With this background we are organizing our own Outward Bound Expeditions for our year 9 with around 80 students each year in June. For a duration of 9 days they explore the challenging nature of the Rondane National Park in Norway in small groups of 12.

Rondetunet has become a fantastic place for the „get-together“ and „re-union“ event at the end of these expeditions. It provides us with fantastic infrastructure such as a large kitchen, a lot of space, showers, bathrooms and of course a warm and very friendly atmosphere. When the students walk into the camp after 9 days in the wilderness they find a fantastic fire place with hot meals and enjoy their time until the big coaches come to take them home.

The opportunities of Rondetunet are the fantastic location, the huge area, parking facilities for big busses, small huts for our basecamp-safety team, the well equipped kitchen and of course the fantastic atmosphere with which the hosts welcome us with around 80 teenagers every year!

We can really recommend it for any small or large group to use this site for whatever kind of base camp or group event in the breathtaking landscape of Norway.
